

JITTER GLITTER

The night before kindergarten is exciting and fun.
Even though we still have so many things yet to be done.

Your backpack is ready and your new clothes are too.
Your classroom awaits, full of fun things to do.

Lots of thoughts and questions will swirl through your mind
Will my teacher be sweet? Will my classmates be kind?

The day before school we all get the jitters down deep,
making it real hard for kindergarteners to fall fast asleep.

So here's some jitter glitter, it's really quite neat.
It will help you calm down and fall right to sleep.

Just sprinkle the glitter under your pillow in bed,
the night before school starts when you lay down your head.

The glitter will help you sleep through the night,
letting you wake up feeling fresh and bright.

Tomorrow is going to be a great day for you,
because your teacher and new friends are so excited to
meet you!

Sweet Dreams!
